Mr. and Mrs. Ray Sandridge, Mr. G. B. Marshall, Miss Neva Hammer and Miss Laura Armstrong came over from Joplin last Thursday evening to visit for a few hours.

Homer Seale, who is running the White Eagle mine and mill and making a big output of ore every day, is now doing some good work on the road leading to Baxter. He is having several places fixed.

For four hundred dollars I can sell you a nice home in Baxter Springs. The house has four rooms, a good barn, three lots, and is close in. If you can pay \$150 down I will give you a contract for deed to be delivered upon payment of the balance, so you need not give a mortgage back. Chas. L. Smith.

A lineman working for the Empire District Company near Lowell Tuesday was hurt in a peculiar manner. He was working on a high pole near a loose brace pole, from which a wire was dangling. An automobile became entangled in the wire and jerked the loose pole against the lineman, who would have gotten a bad fall from his lofty perch but for his safety strap. As it was, his head was cut badly enough to require two stitches by Dr. Mutz, who attended him.

Bob Frazier, Dick Armstrong and Jim Dameron were here from Neosho township last Thursday. Bob brought us a nice mess of fish. He is going to be a candidate for sheriff next fall. Bob moved out onto a Neosho township farm from Columbus a few years ago, and he had to go deeply into debt to get the farm, and get started to farming. He is now free of debt, has increased his acreage, has a nice home, lots of stock around him and drives a big Overland car. He worked hard to get and enjoy all these things, and now he thinks he would like to serve the people as sheriff. They will give him the nomination and elect him, and he will make an exceptionally good official.

We Must Have It.

Columbus is working tooth and nail for the electric road, and it now looks as if there was going to be mighty little opposition to the bonds in that town. In fact, it looks very nearly unanimous.

Columbus knows the value of inter-urban roads, and is after all of them she can get. When the electric road was built from Pittsburg to Columbus the town took on new life, and drew hundreds of people from the coal mining districts to the north to live in Columbus. People from the country traversed by the road send their children to Columbus to school. All these things made Columbus a good town, and that is one of the reasons she wants this road.

And all of these reasons are mighty good ones why Baxter Springs must also have the road. If it is a good thing for Columbus it will be a good thing for Baxter Springs. If the road should be built to Columbus and not to Baxter Springs, a lot of the trade from the west of Baxter would be diverted to Columbus. We can not allow any such thing as that to happen.

And we are glad to know that the opposition to the road in Baxter Springs is growing less every day.

Let every good citizen get up into the collar and boost for the road.

Friday, Nov. 12, is the day for us to say by our votes whether or not we want it. The answer will be "yes." Of course it will.

Misses Ethel Bunch and Laura Armstrong and Messrs. Chas. Patterson, Jr., and Jack Clayton of Joplin spent Sunday in this city.

Will Waugh left Monday night for Washington, D. C., to look after some business matters. Will is interested in some oil leases down near Muskogee, and some Washington fellows are in with him.

It won't be long, now, until big corn stories come in. And we want you to bring the stories to the News, so we can tell the outside world about what a big corn crop we have in this section. And again, we don't want you to forget the News corn contest. Cash prizes, remember.

B. M. Robinson of Joplin has taken a lease on a part of the Buck land south of town, and he has prospected it enough to know he has a big ore body. He is now having plans drawn for a modern mill. Mr. Robinson, who is a practical mining man, says the dirt will run seven per cent metallic zinc.

The old Hannibal & St. Joe mine, southwest of town, is being put back among the producers. E. F. Sweeney is the superintendent for the new company, and the mill is being overhauled. It will be ready to mill dirt in a few days. Workmen are now in the ground and the dirt they are shooting down is good.

Willard Shults has just finished a big addition to the farm home of Dan Miller, northwest of town, and has remodeled the main house. Last Friday night Dan was getting ready to turn in for the night about fifty of his friends appeared on the scene and postponed his sleep for him. They came to give him and his wife an old-fashioned house warming, and it was mighty late before they left.

On last Wednesday afternoon Mrs. C. F. Polster very pleasantly entertained the Poinsetta club at her home in honor of her niece, Miss Lucille Miller, of Manila, Iowa. In a conversational contest the prize, a dainty plate, was won by Mrs. Harmon. Delicious refreshments were served. Besides the members of the club, other guests were Mrs. Kelly Carmichael, Mrs. John Polster, Mrs. Ed. Polster, Mrs. L. B. Harmon of Chattanooga, Tenn., Miss Parsons of Denver, and Miss Miller.

Childhood Memories

Isn't it a fact that some of the things that happened to you in childhood are still among the most vivid things in your memory?

Childhood impressions are lasting. As the twig is inclined, the tree will grow. If you teach the child the saving habit by starting a bank account, the habit will grow. Many parents realize this and have had their children open accounts at our bank. They are taught to save pennies, the nickles and the dimes. In after years it is easy for them to save the dollars also. You couldn't do better by your children than to help them start a little bank account.
